

Generations Construction

**HARMONIZING GENERATIONS OF QUALITY
WITH MODERN DESIGN**

Generations Construction is a residential development and construction company operating in the Greater Dayton area, owned by brothers Ken and Jeff Grisez. From the time their great-grandfather built homes until now, their family has asked, "How can we make certain our customers have a positive, quality, homebuilding or buying experience?" We believe that the longevity of our company rests on our commitment to quality homebuilding. When we build a home, we prove that it is built for generations!

Generations Construction

A REPUTATION OF EXCELLENCE...

OUR 10 KEY STRATEGIES

- 1.** Build a relationship of trust before building your home.
- 2.** Invest the time to clarify customer needs and desires.
- 3.** Document our communication and new home specifications.
- 4.** Approve final drawings.
- 5.** Meet with our team of professional home designers/consultants.
- 6.** Maintain control, providing our craftspeople with the resources to keep the project on time and in budget.
- 7.** Stay connected with regular client conferences.
- 8.** Complete final orientation walk through.
- 9.** Provide comprehensive homeowner's manual.
- 10.** Supply service after sale.
